

Gardening for Change: Protecting and Enhancing Our Biodiverse Environment

Plant Vendors:

[Celestial Dreams Gardens](https://www.facebook.com/CelestialDreamGardens/) (<https://www.facebook.com/CelestialDreamGardens/>)

Celestial Dreams Gardens is a small specialty nursery located in Kingston, Washington. They grow the tried & true, the rare & few, and whatever tickles their fancy—find them at local plant sales where they peddle their wares.

[Earth Grown Creations](http://earthgrowncreations.com) (<http://earthgrowncreations.com>)

Earth Grown Creations is a boutique nursery located in Port Orchard, Washington, specializing in growing flowering shrubs, perennial flowers, herbs, and native plants that are hardy in the PNW. They grow everything outside (without greenhouses or heavy fertilizers) so all the plants are ready to go right into the ground at their new forever homes.

[Fancy Fronds Nursery](https://www.fancyfronds-nursery.com) (<https://www.fancyfronds-nursery.com>)

Fancy Fronds is a small, family run nursery in Gold Bar, Washington. They offer a wide selection of hardy temperate ferns, as well as subtropical ferns and houseplants. Thoroughly established ferns are available via mail order, at local plant sales in the Seattle area, and by appointment at their nursery and garden on the scenic Skydomish river.

[Kiona Native Plants](https://www.kionanativeplants.com) (<https://www.kionanativeplants.com>)

Rooted in Southwest Washington, we are a small native plant nursery dedicated to growing vibrant perennials from seed. From regional favorites to hard-to-find gems native to the Pacific Northwest and Northern California, our ever-expanding selection brings unique, ecological beauty to your garden year after year.

Unique plants that we will be bringing to the event:

Aralia californica 'Elk Clover'

Castilleja miniata 'Scarlet Paintbrush'

Epilobium luteum 'Yellow Willowherb'

Erigonum umbellatum 'Sulphur Flower Buckwheat'

Lewisia cotyledon 'Siskiyou Lewisia'

Penstemon venustus 'Elegant Penstemon'

Triantha occidentalis 'Western False Asphodel'

[Salish Trees Nursery](https://www.salishtreesnursery.com) (<https://www.salishtreesnursery.com>)

Located in Kingston, Washington, Salish Trees Nursery offers a wide variety of Pacific Northwest native trees, shrubs, and perennials. Their mission is to provide quality flora that thrive in our local environments, nurturing our critical ecosystems for the benefit of all.

Gardening for Change: Protecting and Enhancing Our Biodiverse Environment

[Wanderlust Nursery](https://www.wanderlustnursery.com) (<https://www.wanderlustnursery.com>)

Discover something new. Wanderlust Nursery is a specialty nursery that offers rare and unusual plants from around the world. Here the intrepid Gardener can find exotic fruiting, edible, and ornamental plants of all types and textures as well as an extensive selection of seeds and botanically-inspired gifts.

[Washington Native Plant Society](https://www.wnps.org) (<https://www.wnps.org>)

The Washington Native Plant Society's mission is to promote the appreciation and conservation of Washington's native plants and their habitats through study, education, and advocacy. With 12 chapters throughout the state, WNPS is celebrating its 50th anniversary of activity and involvement in protecting Washington's native plants.

Partner Organizations with Information Tables:

[Washington State Department of Agriculture](https://agr.wa.gov/) (<https://agr.wa.gov/>)

WSDA has been serving agriculture and the public for more than 100 years. Through service, regulation, and advocacy, we support keeping agriculture viable and vital in Washington State, while protecting consumers, public health, and the environment. Cassie Knavel is an Outreach Specialist with the Washington State Department of Agriculture. Currently, Cassie supports national priorities surrounding invasive species, advocating for Washington's landscapes.

Habitat at Home

Habitat at Home supports people in creating and experiencing wildlife habitat in urban and suburban spaces. We encourage co-existence and connection with wildlife through doable actions that positively impact wildlife. From balconies and container gardens to community spaces, you can build and support habitat wherever you live, work, and play! Habitat at Home is an education and habitat certification program. We are an effort of Washington Department of Fish and Wildlife.
